 - Body Systems

BIOLOGY

- Space is limited for this class. It is recommended students have A's and B's in math and science, end of level test scores of 3 or 4 and enrolled in Secondary Math 1 Honors.
- You need a lot more math in chemistry and physics when you take these classes in 10th and 11th grade.

Students need to complete 3 science credits to graduate. Here are examples of possible science tracks.			
9 th	10 th	11 th	12 th
Earth Systems	Biology	Chemistry, Physics, or other approved science

ENGINEERING CREDITS

- This course may also be taken to fulfill a third science credit requirement.
 - (Third science means that the other science classes must be foundation science classes. For Example: Earth Science, Biology, Chemistry, or Physics)
- If students take Engineering Principles 1 and 2 for the full year, they can earn 1.0 science credit. This class could be taken in place of Earth Science or Biology.
- This class can also be taken for Career and Technical Education (CTE) credit. This class can be taken for one semester or a full year depending on their graduation credit needs. Students may earn 0.5 (semester) or 1.0 (year) CTE credit.
- This is not a pre-requisite class for other engineering classes taught in the high school. However, it is a great opportunity for students to explore the engineering field by taking this introductory class.

A.P. HUMAN GEOGRAPHY

- Solid reading and writing skills (Lexile >1200)
- Expect 30 min. of homework daily.
- Strong work ethic – COMMITTED to doing your best!
