Proposed School Improvement & School Land Trust Plans

Reviewed SIP. Went over school population. Went over SAGE scores. Went over areas of improvement. Went over areas where improvement is needed. Went over last year's goals. Went over Land Trust Funding. Went over next year's goals. Went over next year's budget. Shellee Kariuki suggested hiring readers from college to help read student essays in all subject areas (\$2,000?). Added this item in addition to more writing laptops to the category of what we would spend additional Trust Lands money on.

Shellee K. proposed to pass the SIP for next year. It was unanimously approved.

Intervention Period

We will modify our RAP period to be more subject specific. It will be a separate period. Bells will be 4 minutes. It was proposed by parent community council members that the students could be allowed to carry backpacks. This will be discussed, with feedback from the faculty, and brought back to Community Council.

School Rules and Policies

Any adjustment for next year? Please review and be prepared for next meeting.
